First joint trade fair presentation of the merged companies Felss and HMP at EMO 2019 in Hanover.

The former Heinrich Müller Maschinenfabrik GmbH (HMP) from Pforzheim is appearing for the first time at this year's EMO Hannover, the world's leading trade fair for the metalworking industry, under the roof of the German Felss corporate group. From 16 to 21 September, visitors to the fair will be able to discover Felss machines, technologies and a wide range of Felss solutions regarding the company's core technologies in connection with Industry 4.0 in Hall 16 at booth E05 + D06.

Since May 2019, the companies of the Pforzheim-based HMP Group have officially been part of the international Felss corporate group. At EMO 2019 trade fair visitors will have the opportunity to get to know the formerly independent companies for the first time under one roof and to convince themselves of their bundled competence in the automotive, industrial, aviation and precision mechanics sectors.

At this year's EMO, the Felss Group will present its latest technology, which was added to the portfolio by the merger with HMP, the rolling technology. In the past, HMP has made a name for itself in this technology area within the industry, which is why rolling at Felss will continue to run under the "HMP" brand in future. During the fair, visitors will have the opportunity to test the Felss Smart Glasses live: With the help of these unique data goggles, an even more efficient service can be offered in future when it comes to the maintenance and repair of Felss machines.

This year, EMO's motto is "Smart technologies driving tomorrow's production!", highlighting the importance of networked systems and Smart Data for all future production planning. All in all, the Felss corporate group therefore fully meets the motto of this year's fair with the developments around the topic of industry 4.0.

About the Felss Group

THE FELSS GROUP

The Felss corporate group, founded in 1905, is a provider of solutions in the field of cold forming of tubes and solid materials and a specialist for the automobile industry. Since the integration of the HMP companies purchased in May 2019, Felss now also serves numerous customers in other sectors. Among these are customers from industry, aerospace and precision mechanics.

As lightweight construction experts, we develop optimal processes, machines or also the finished product in component manufacturing for our customers. Around 1,100 employees work worldwide at our nine locations in Germany, Switzerland, the USA, China and Slovakia.

FELSS SYSTEMS

Machines, production systems and processes developed optimally.

FELSS ROTAFORM

Component manufacturing by specialists – including in high volume.

The Management Board of the Felss Group:

Reinhard Pfendtner (Chief Operations Officer)

Ute Salzbrenner (Chief Financial Officer)
