

Press release.

For immediate publication

Dr. Reinhard Pfendtner is the new COO of the Felss Group.

As of 1 June, this year, Dr. Reinhard Pfendtner has assumed responsibility for production, purchasing and logistics as Chief Operations Officer at the Felss Group. He replaces our esteemed colleague of many years, Rainer Schiessle, who leaves the company in mutual agreement to take on new challenges.

After his doctorate and four years of scientific work at the University of Karlsruhe, Reinhard Pfendtner gained more than 15 years of professional experience in various management positions, including project manager, internal auditor and technical manager. Since 2015 he was plant manager and COO at Weber Hydraulics, responsible for the plants in Brazil, USA, Canada and Europe.

"At Felss, I am particularly attracted by the combination of mechanical engineer and supplier," says Pfendtner about his goals. "As a team player, I look forward to further developing Felss together with my new colleagues. Our customers and their needs are always the focus of my attention". Pfendtner brings his extensive expertise in the automotive sector together with a well-thought-out approach, a high level of technical understanding and business management skills to Felss with immediate effect as COO.

The Felss Group wishes Dr. Pfendtner every success in his new role and looks forward to working with him.
